PRESIDENT UNIVERSITY

Where tomorrow's leaders come together

S1 Extension Program

The first duty of a university is to teach wisdom not trade; character not technicalities
Winston Churchill

Where Tomorrow's Leaders Come Together

S1 Extension for Executives/Employees

According to President University's founder, Mr. Setyono Djundi Darmono, President University was built for two reasons; to become a research and development center and to set a new benchmark in Indonesian higher education. The founders of President University laid down the foundation and ground work to ensure that President University will develop into a great institution of learning where students can acquire knowledge and develop into useful, responsible citizens and future leaders.

Menurut pendiri dan President University, Mr Setyono Djundi Darmono, President University didirikan dengan dua alasan untuk menjadi pusat penelitian dan pengembangan serta untuk menetapkan tolak ukur baru dalam dunia pendidikan tinggi di Indonesia. Kedua alasan tersebut dijadikan sebagai fondasi dasar agar Universitas ini dapat berkembang menjadi institusi pendidikan tinggi yang terapan di mana para mahasiswa/i dapat memperoleh pengetahuan dan berkembang menjadi pemimpin masa depan yang berguna dan penuh tanggung jawab.

President University is located in Jababeka Education Park in Kota Jababeka, Cikarang. It is surrounded by the Jababeka Industrial Estate with more than 1.500 national as well as multinational companies such as Malls, Unilever, Samsung, Mattel, ICI Paint, and others.

President University terletak di Jababeka Education Park di Kota Jababeka, Cikarang yang dikelilingi oleh kawasan industri Jababeka yang memiliki lebih dari 1.500 perusahaan nasional maupun multinational seperti Malls, Unilever, Samsung, Mattel, ICI Paint, dan lain-lain.

S1 Extension Program of President University is specially designed for executives/employees pursuing their career in multinational and local leading companies around Jababekedak area. Program Ekstensi S1 President University ini dirancang khusus untuk para eksekutif/karyawan yang mengincar karir mereka di perusahaan multinational maupun perusahaan terkemuka lokal di sekitar wilayah Jababekedak.

The schedules of studies are adjusted in accordance to the hectic working schedules of these executives/employees allowing them to work and study on the same day. Apart from that, the program incorporates both theoretical and practical learning to enhance their skills and knowledge in their fields of expertise.

Jadwal pembelajaran disesuaikan dengan jadwal kerja yang padat dan jam sibuk karyawan sehingga memungkinkan mereka untuk bekerja dan belajar pada hari yang sama. Selain itu, program Ekstensi S1 President University menggabungkan teori dan praktik kerja untuk meningkatkan keterampilan dan pengetahuan dalam bidang keahlian mereka.

Management

This major focuses on the key challenges facing practicing managers today such as the relationship between people and an organization, performance, change, innovation, and technology. You will be able to develop a foundation of knowledge, insights and abilities required of managers in a wide range of sectors, industries and functions, including the management skills of communication, problem solving, planning, organizing, managing change and working cooperatively with others. Throughout this major you will study several common core units including International Business, Banking and Finance, Accounting, Marketing, Human Resources, and other management related subjects to gain an introduction to the various aspects of business.

Managemen

Jurusan ini berfokus pada tantangan utama yang dihadapi para manajer di semua lini seperti hubungan antara manusia dan suatu organisasi, kinerja, perubahan, inovasi, dan teknologi. Anda akan mempelajari keterampilan dasar pengajaran, wawasan dan kemampuan yang dibutuhkan para manajer dalam berbagai sektor, industri dan fungsinya, termasuk keterampilan manajemen komunikasi, pemecahan masalah, perencanaan, pengorganisasian, pengelolaan perubahan dan bekerja sama dengan orang lain. Melalui jurusan ini, Anda akan belajar beberapa mata pelajaran umum termasuk Bisnis Internasional, Perbankan dan Keuangan, Akuntansi, Pemasaran, Sumber Daya Manusia, dan mata pelajaran lain yang terkait dengan manajemen untuk mendapatkan pemahaman terhadap berbagai aspek bisnis.

Accounting

This major will introduce you to accounting principles, auditing, taxation and relevant areas of business law and financial management. You will examine the recording and communication of information relating to the financial performance of organizations. You will learn to prepare reports or give advice on an organization's record-keeping and compliance requirements, ensuring you are ready for a successful career in any sector of industry.

Akuntansi

Jurusan ini akan memperkenalkan Anda kepada prinsip-prinsip akuntansi, audit, perpajakan dan area yang berhubungan dengan hukum bisnis dan manajemen keuangan. Anda akan menganalisis catatan keuangan dan komunikasi informasi yang berkaitan dengan kinerja keuangan organisasi. Anda akan belajar untuk menyiapkan laporan atau memberikan saran mengenai persyaratan keuangan dan pemenuhan persyaratan suatu organisasi sebagai mahasiswa Anda siap untuk karier yang sukses di setiap sektor industri.

Career Opportunities (Peluang Karir):

Economics/Business Management Planners, Project Management, HR Generalist/Specialist, Office Administrators, and more.

Career Opportunities (Peluang Karir):

Public Accountant, Auditor, Cost Accounting Staff/Officer/Manager, Compensation and Benefits Officer, Financial Cost Controllers, and more.

Information Technology

This major focuses on the overall discipline of information technology which covers the more technological and applied aspects of computing, with less emphasis on theory. You will learn about networking, communications, graphics, artificial intelligence for decision support, software design and programming and other specialized related fields of your choice. Prior to graduation you will undertake a project to develop further practical skills in a specific area of IT.

Teknologi Informasi

Jurusan ini berfokus pada disiplin ilmu teknologi informasi yang meliputi aspek komputasi dengan lebih cangkang, dengan sedikit penekanan pada teori. Anda akan belajar tentang jaringan, komunikasi, grafik, pemrograman dan spesialisasi lainnya, sesuai dengan bidang pilihan Anda. Sebelum lulus, Anda akan melakukan proyek untuk mengembangkan keterampilan dengan dalam bidang khusus di IT.

Career Opportunities (Peluang Karir):

Web Designer, Programmer, Network Administrator, IT Consultant, IT Officer/Help Desk/IT Analyst, and more.

Industrial Engineering

Industrial Engineering discusses the various concepts of industrial and engineering industries. This major will discuss topics related to human and human resources (as users of finished goods), such as industrial psychology, marketing management, human resource management, organizational theory, and accounting.

In short, this major will equip students with the knowledge and skills to manage the elements of management, such as human, machine, methodologies, materials and money.

Teknik Industri

Pendidikan di Jurusan Teknik Industri akan membahas berbagai konsep tentang industri dan rekayasa industri. Jurusan ini akan membahas topik-topik yang berkaitan dengan manusia dan sumber daya manusia (sebagai pengguna barang jadi), seperti psikologi industri, manajemen pemasaran, manajemen sumber daya manusia, teori organisasi, dan akuntansi.

Singkat kata, jurusan ini akan membekali para mahasiswa dengan pengetahuan dan keterampilan untuk mengelola elemen manajemen, yaitu manusia, mesin, metodologi, material dan uang.

Career Opportunities (Peluang Karir):

Structural Design Engineer, Road Construction Engineer, City Planning Engineer, Facilities Design Engineer, Research Engineering Lectures, Production System Engineer, and more.

Mechanical Engineering

Mechanical Engineering is an engineering discipline that was developed from the application of principles from physics and materials science. It is the branch of engineering that encompasses the generation and application of heat and mechanical power and the design, production, and use of machines and tools. It is one of the oldest and broadest engineering disciplines. The field requires a solid understanding of core concepts including mechanics, kinematics, thermodynamics, fluid mechanics, heat transfer, materials science, and energy. Mechanical engineers use the core principles as well as other knowledge in the field to design and analyze manufacturing plants, industrial equipment and machinery, heating and cooling systems, motor vehicles, aircraft, watercraft, robotics, medical devices and more.

Teknik Mesin

Teknik Mesin adalah sebuah disiplin ilmu yang dikembangkan dari penerapan prinsip-prinsip fisika dan ilmu material yang meliputi pembuatan dan aplikasi energi panas, tenaga mesin berantai mekanis, produksi, penggunaan mesin dan peralatan. Teknik mesin adalah salah satu disiplin ilmu yang paling tua dan paling luas.

Jurusan ini memerlukan pemahaman yang solid terhadap konsep inti termasuk di dalamnya mekanika, kinematika, termodinamika, mekanika fluida, perpindahan panas, ilmu material, dan energi. Para Tekniker Mesin menggunakan prinsip-prinsip inti serta pengetahuan lain di bidang tersebut untuk merancang dan mengoperasikan pabrik, industri peralatan dan mesin, sistem pemanas dan pendingin, kendaraan bermotor, pesawat terbang, perahu, robot, peralatan medis dan banyak lagi.

Career Opportunities (Peluang Karir):

Automotive Industry, Chemical, electronics, steel plants, oil exploration and refining, technical wings of armed forces, space research organisation, etc.

Public Relations

Public Relations will discuss the creation, development, and management of an idea, product, or organization that aims to influence public opinion and reaction to a better direction.

For that reason, this major will discuss about the advertising, media, event promotion, publicity, and good coaching relationship with the community. Therefore, Public Relations can be considered as a major weapon in the communication and reputation management.

Ilmu Komunikasi

Pendidikan di Jurusan Ilmu Komunikasi akan membahas tentang penciptaan, pengembangan, dan pengelolaan suatu ide, produk, maupun organisasi yang bertujuan untuk mempengaruhi opini dan reaksi publik ke arah yang lebih baik.

Untuk itu, jurusan ini akan membahas tentang periklanan, media massa, aktivitas promosi, publisitas, dan pembinaan hubungan baik dengan masyarakat. Dengan demikian, ilmu komunikasi dapat dianggap sebagai senjata utama dalam komunikasi dan pengelolaan reputasi perusahaan.

Career Opportunities (Peluang Karir):

Public Relations Officer, Event Organizer, Media Presenter, Journalist, Copy Editor, TV/Radio Announcer, Reporters, and more.

Law Studies

Studying law offers wonderful career opportunities not only in legal practice but also in a very wide range of areas from business to politics to international relations and beyond. The major offers its students an intellectually exciting learning environment with high academic standards. It tries to develop equally both legal knowledge and practical learning (hands on experience) in law matters. Its main focus is to produce lawyers who match and link with the business community and international environment.

Ilmu Hukum

Belajar hukum menawarkan kesempatan karir yang menjanjikan tidak hanya dalam praktik hukum, tetapi juga dalam berbagai bidang seperti bisnis, politik, hubungan internasional dan lain sebagainya. Jurusan ini menawarkan pada mahasiswa lingkungan belajar yang menarik dengan standar akademik yang tinggi. Studi Hukum mencoba untuk mengembangkan pengetahuan hukum baik dari segi teori maupun praktik dalam bidang hukum. Fokus utamanya adalah untuk menghasilkan pascasarjana yang dibutuhkan komunitas bisnis dan lingkungan internasional.

Career Opportunities (Peluang Karir):

Multinational Corporations, Investment Companies, Capital Market Companies, Tax Consultant, Government Officials, Foreign Affairs Department, Indonesian Foreign Embassy, United Nation Organization and the subsidiaries, Human Right Organization, ASEAN Organization, International Litigation, TNI-POLRI, Court of Justice, and more.

Labs and Facilities
